Subj: Applying for Credential

This is an auto-generated email; please do not reply to this message. For questions, contact us by phone during office hours.

Congratulations!

The Credential Student Service Center will start accepting credential applications for each quarter, depending on when you complete all requirements for your program. Applications will be processed as soon as we can verify that all requirements have been met and final grades have been posted. The Credential Student Service Center will be processing applications on a rolling basis daily. Applications can be submitted any time after we start accepting applications as long as all requirements have been completed.

Below you will find important dates as well as the link for the credential application.

Spring Quarter 2016 Completers:

Credential applications will be accepted beginning Wednesday, June 1, 2016.
The official issuance date of your credential will be June 11, 2016, or the date your last requirement is completed.

Final grades for Spring Quarter 2016 are expected to be posted on June 20, 2016. This is the date the Credential Student Service Center anticipates processing credential applications.

Summer Quarter 2016 Completers:

Credential applications will be accepted beginning Tuesday, September 6, 2016.
The official issuance date of your credential will be September 2, 2016, or the date your last requirement is completed.

Final grades for Summer Quarter 2016 are expected to be posted on September 12, 2016. This is the date the Credential Student Service Center anticipates processing credential applications.

Fall Quarter 2015 Completers:

Credential applications will be accepted beginning Thursday, December 1, 2016.
The official issuance date of your credential will be December 9, 2016, or the date your last requirement is completed.

Final grades for Fall Quarter 2016 are expected to be posted on December 19, 2016. This is the date the Credential Student Service Center anticipates processing credential applications.

Credential Completer Application:
