

Department of AGES

CLASS

ASSESSMENT PLAN: B.A.

Date Updated: Spring 2022

PROGRAM LEARNING OUTCOMES (PLOs)

Students graduating with a B.A. in Anthropology will be able to:

identify, summarize and sequence the basic schools of anthropological thought in all four academic sub-fields of the discipline

apply basic qualitative and quantitative sociocultural (ethnographic), archaeological, or osteological research methods and skills

describe, compare and relate human cultures across different regions of the globe

examine human diversity holistically and scientifically, discriminating among and analyzing conceptions and misconceptions of ethnicity, "race," and human biological variation

identify pragmatic uses of anthropological methods and perspectives in approaching real-world solutions, and identify instances of and opportunities for applications of anthropological tools and ideas in employment and community development, both locally and globally

communicate information clearly in written and oral forms
