The Curriculum

Students can pursue a
general Health Sciences
degree or can choose
KDYH D FRQFHQWUDWLRQ
public health or health
policy.
degree or can choose

Public Health

The public health
concentration
emphasizes the health of
populations and gives
students an introduction
to the core concepts of
public health.

Our Faculty

Our faculty are scholars with backgrounds in epidemiology, community health, law, political science, biology, public health, psychology, literature, and ethics.!

They are committed HGXFDRUV and UHVHD bringing real-world issues into the classroom. Our faculty also work with students as mentors and involve students in their VFKRODUO\ projects.
