

**California State University, East Bay
Department of Teacher Education**

**Multiple Subject Credential Program
Single Subject Credential Program**

**Early Completer Option (ECO) and the
Teaching Performance Assessment (TPA)**

I understand the following policies in regards to the TPA:

(1) All credential program candidates choosing the ECO must successfully pass each TPA Task on the first submission. Any ECO candidate who fails a TPA Task on the first submission will be required to complete all credential program classes. No special class scheduling accommodation will be made for ECO candidates who fail a TPA Task. This will require the ECO candidate to enroll in additional quarters of classes.

(2) All credential program candidates, both ECO candidates and others, must submit each TPA Task by the submission deadline. Failure to do so will result in the candidate being dismissed from the credential program.
